

System Requirements

- Any PDA Device running Windows Mobile 5.0 or higher.
- Suggested use with the Trimble Juno SC.

E-Sign Mobile

Asset Cataloging System

E-Sign Mobile by EPIC Solutions is a state of the art program designed to help field workers accurately and efficiently catalog assets on the job.

While out in the field you are able to pinpoint exact GPS locations for all your assets and automatically load them onto a web based server.

A point is created for all your assets that include attributes, tasks, a complete work history, and a picture associated with each item.

E-Sign Mobile allows user to search for signs based on geographical area, or by unique ID.

Versatile, simple to use software is extremely user friendly, and comes with complete step-by-step instructions.

E-Sign Mobile Benefits

- **E-Sign Mobile can help you be compliant and stay compliant with retro reflectivity standards of the MUTCD.**
- **Having a complete database is important in reducing liability exposure. E-Sign Mobile provides you the tools necessary to reduce your liability risk.**
- **Work either online or offline, the E-Sign Mobile can be used anywhere you need to be!**

EPIC Solutions is committed to being technology leaders in the highway construction, roadway maintenance, and related industries. We build high quality machines to fill a need, that are safe and improve efficiency. Developed and road tested with the participation of industry experts, these products will perform for you.
