Web Based Inventory Management

EPIC Solutions has developed a unique web based inventory management system, **E-Sign Web**, capable of keeping track of all your assets from one easy location.

Once data has been collected, simply upload the files onto the E-Sign Web server where tasks and attributes can be managed with just the click of a button.

A complete work history and individual picture is also assigned to each asset.

E-Sign Web allows user to keep inventory current with inspections, repairs, and replacements.

E-Sign Web Benefits

- **E-Sign Web can help you be compliant and stay compliant with retro reflectivity standards of the MUTCD.**
- **Having a complete database is important in reducing liability exposure. E-Sign Web provides you the tools necessary to reduce your liability risk.**
- **With E-Sign Web you can populate your inventory on standard maps or you can use your own base maps to view your inventory.**
- **No IT involvement is needed. You don't have to be a GIS specialist to run this program.**

EPIC Solutions is committed to being technology leaders in the highway construction, roadway maintenance, and related industries. We build high quality machines to fill a need, that are safe and improve efficiency. Developed and road tested with the participation of industry experts, these products will perform for you.
