

Grader/Maintainer GPS Tracking

A GPS module supplied by EPIC Solution on a Maintainer/Grader can:

- **Track date and time roads were maintained.**
- **Track equipment real-time.**
- **Record when the plow is down based on speed of grader.**

Calculates the actual time equipment is grading roads. Data can be used to generate an invoice or time card.

Collected data is tracked live via an air card or stored on a USB Flash Drive.

Simply hook up power to the GPS module and it is ready to start tracking.

Benefits

- **Dependable – plow position is determined without sensor.**
- **Convenient – data displayed live or historically.**
- **Accurate – up-to-date record of road conditions.**
- **Interchangeable – can be transferred to different pieces of equipment for different seasons.**

EPIC Solutions is committed to being technology leaders in the highway construction, roadway maintenance, and related industries. We build high quality machines to fill a need, that are safe and improve efficiency. Developed and road tested with the participation of industry experts, these products will perform for you.
