SS3000 Vac System

Epic Solution's mobile vac system are ideal for the contractor who needs to move from job site to job site.

Designed with minimal airflow restriction and maximum collection efficiency.

- 14HP Subaru Gas Engine
- Electric Start
- Hydraulic Waste Lift
- Air Purge Cleaning System

Rugged steel construction with standard lifting hooks and skid base for ultimate portability.

The SS3000 uses significantly smaller and more powerful filter packs than baghouses, provides better dust collection, and lowers operational costs.

Pair with any standard size 55 gallon drum for easy collection handling.

EPIC Solutions is committed to being technology leaders in the highway construction, roadway maintenance, and related industries. We build high quality machines to fill a need, that are safe and improve efficiency. Developed and road tested with the participation of industry experts, these products will perform for you.

Uses:

- Road & Surface Grinders
- Customizable to meet your needs
- Any application that requires a high volume collection unit.
