

## GR 1000

## Gun Raiser

EPIC Solutions now offers you an electric gun raiser for your paint, epoxy, thermo and MMA striping trucks.

Using 12V power supply, the GR 1000 gives the operator the ability to increase/decrease the line width without having to stop the truck.

The GR 1000 works with existing equipment and can be used in conjunction with the EPIC Solutions' Timing System.

The GR 1000 can be installed on any truck, regardless of manufacturer. Can be used with any truck setup. No limit to the number of gun raisers per side.

Works great for making quick adjustments to the line width when changes in material/environmental temperature arise.

*EPIC Solutions is committed to being technology leaders in the highway construction, roadway maintenance, and related industries. We build high quality machines to fill a need, that are safe and improve efficiency. Developed and road tested with the participation of industry experts, these products will perform for you.*

### Features:

- Raise or lower the height of the gun with just the press of a switch.
- Gives operator ultimate control without stopping.
- Can be used on both paint guns and bead guns.
