

# A Skid-Mounted Thermoplastic Melting System

Increased Capacity & Versatility!  
Available in PROPANE or DIESEL

## FastMelt™ 777 Thermoplastic Premelter Kettle

The FastMelt™ 777 is a completely self-contained thermoplastic melting system that can be placed in the back of a standard pickup, flatbed truck, or a work trailer for easy transport. Holds 777 lbs. of material for highly efficient thermoplastic striping and perfect for use with any ThermoMark™ (or competitive model) applicator.

### Safety First Features

Epic Solutions (Advanced Striping Equipment) has thought of everything. The FastMelt 777's fully modular design allows for complete replacement of all its parts – thus maximizing the longevity of your equipment and ensuring many years of dependable service and quality striping.

#### Features for Safety, Convenience, and Efficiency.

- ▶ **NEW Fuel Options:** DIESEL or PROPANE Fired
- ▶ **Propane Conversion Engine:** Briggs & Stratton Vanguard (LP) 305cc (10hp) Electric Start (10amp Alt.r)
- ▶ **Propane (CA) Conversion Engine:** HONDA GX390cc (LP), Electric Start (18amp Alt.) \*California Compliant & Certified\*
- ▶ **Diesel Engine:** Koehler 8.5hp Diesel (Air Cooled) Electric Start (20 amp Alt.)
- ▶ Anti-Splash / 3-Way Safety Door
- ▶ Automatic Pilot to Flame Technology / Direct Spark Ignition System. No time consuming manual PILOT required.
- ▶ All-in-one SKID platform (with forklift pockets for portability)
- ▶ Compact – fits in the back of a pickup (1-ton or larger), flatbed, or trailer (48" W x 42" D x 57.5" H)
- ▶ Lightweight (1185lbs empty)
- ▶ Melts and holds up to 777LBS at 400°F
- ▶ High-temperature limit safety switch to prevent overheating thermoplastic material
- ▶ Burner access door safety gate
- ▶ Thermo-dump door safety gate
- ▶ Adjustable hydraulic speed control dial with forward and reverse action lever for optimum blending
- ▶ Feed any applicator in minutes!
- ▶ Manufactured and supported in the USA

EPIC Solutions is committed to being technology leaders in the highway construction, roadway maintenance, and related industries. We build high-quality machines to fill a need that are safe and improve efficiency. Developed and road tested with the participation of industry experts, these products will perform for you.

# FastMelt™ 777 Thermoplastic Trailer System

Kettles, Materials, and Tools All in One Place!

## TomiHAWK™ Series Thermoplastic Trailer

Designed for pavement marking contractors, municipalities, and/or State DOT's, this solution is an all-in-one transport system for thermoplastic kettles (777lbs to 2000lbs) material and application equipment.

It is fully customizable with space for multiple melting kettles, applicators, and tools with space for the thermoplastic material and glass beads you need for a day's work. Choose from single or dual melting kettles, applicators, hydraulic liftgate, arrow-board and much more.

### TomiHAWK Trailer Specifications

- ▶ Available in either a single kettle or double kettle configuration.
- ▶ 20' Overall Length (Est.)
  - ▶ 15' Trailer Bed
  - ▶ 5' Trailer Tongue
- ▶ Dual Tandem Axle / 14,000 GVWR
- ▶ Electric Brakes on Both Axles
- ▶ Upgraded Diamond Plate Top Deck
- ▶ Powder Coat HD Paint
- ▶ Water Cooler with Mount Included
- ▶ Heavy Duty Square Jack Included
- ▶ All trailers equipped with stake pockets — Add Side Rails now or later!
- ▶ Thermo-Chute slide in storage area included

### SAFETY FEATURES

- ▶ Double Rear Bumper Included
- ▶ Fire Extinguisher with Mount Included
- ▶ Reflective Safety Tape
- ▶ Included — Safely Access Trailer Bed

### OPTIONS

- ▶ Side Rails with Removable Section
- ▶ Lift-Gate
- ▶ Arrow-Board
- ▶ Beacon / LED Light Package
